Package Not Supported Warning on DynaCenter Agent Upgrade

Reference Number: **AA-00415** Views: **3548** Created: **03-29-2017 11:14** Last Updated: **05-05-2017 14:14**

Symptoms:

When manually upgrading the DynaCenter agent on a SUSE Linux Enterprise Server (SLES) system you see the following:

The following package is not supported by its vendor:

```
racemi-blademgmt-linux-2-6
```

Applies To:

DynaCenter 6.8.0 and later

Background:

Zypper, the native command-line interface used to manage software packages on SUSE systems, will indicate that a package is not supported whenever the package vendor is not openSUSE.

Resolution:

This is a Zypper warning about the package vendor and it can be safely ignored; the upgrade of the DynaCenter agent package will not be affected.
